

/home/gui/Desktop/MINIX
-LCOM/shared/proj/src
/objects/wall.h

```
graph BT; A["/home/gui/Desktop/MINIX  
-LCOM/shared/proj/src  
/objects/wall.c"] --> C["/home/gui/Desktop/MINIX  
-LCOM/shared/proj/src  
/objects/wall.h"]; B["/home/gui/Desktop/MINIX  
-LCOM/shared/proj/src  
/proj.c"] --> C;
```

The diagram illustrates a dependency structure where two source files, `wall.c` and `proj.c`, both depend on the header file `wall.h`. The header file is located in the top box, while the source files are in the bottom boxes. Blue arrows point from each source file box to the header file box.
